

BLUEVIOLETAPPS| CAPABILITY STATEMENT

UEI: L2YYBMHWGQC8 | **Status:** VOSB / WOSB (Pending Certification)

COMPANY OVERVIEW

BlueVioletApps, LLC is a defense-focused software firm specializing in AI-native tools for different audiences. We bridge the gap between legacy administrative burdens and modern mission readiness by delivering PII-safe, NIST-aligned applications designed for shipboard and shore-side operational environments.

CORE COMPETENCIES

- **Inventory & Audit Readiness:** Automated compliance dashboards for NAVSUP P-485 logic (Supply Command).
 - **Administrative Continuity:** PII-safe bridging solutions for personnel evaluation systems (Eval Commander).
 - **Logistics & Food Service Tech:** P-486 galley management and requisition tracking (The Salty CHOP).
 - **Secure Software Architecture:** Rapid deployment of CMMC 2.0-ready applications for CUI environments.
-

PAST PERFORMANCE / CURRENT PILOTS

- **Supply Command (Beta):** Architected to address DODIG-2026-073 audit findings (\$3.8M zero-demand inventory visibility).
 - **Eval Commander (Live):** Strategic bridge solution for the eNavFit sunset vacuum.
 - **Fleet-Wide Deployment:** Currently managing a suite of 9 applications focused on Supply Corps and Fleet readiness.
-

DIFFERENTIATORS

- **Mission-Driven Design:** Built by developers with deep Navy domain expertise.
- **NIST 800-53 Aligned:** Architecture focused on data integrity and PII protection from Day 1.

- **Rapid Agile Deployment:** Capability to move from "Policy Change" to "Software Solution" in <30 days.
-

CORPORATE DATA

- **NAICS Codes:** 541511 (Custom Computer Programming), 541512 (System Design), 513210 (Software Publishers).
 - **PSC Codes:** DA01 (IT and Telecom), R425 (Support- Professional: Engineering/Technical).
 - **Insurance:** Fully Insured by The Hartford.
 - **Tax/Audit Oversight:** Kat Mead Tax Services.
-
